

DAMARO

Data Management Roll-out at Oxford

UNIVERSITY OF OXFORD

DataFinder

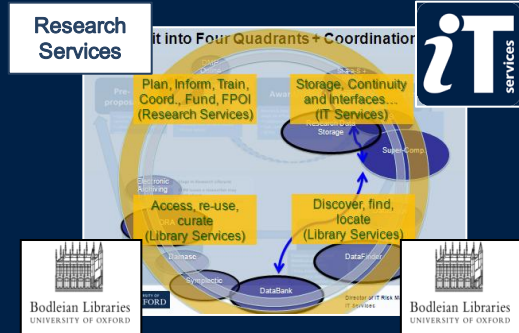

Research data catalogue & discovery service

DataBank

Institutional research data archive

Defined responsibilities

Research data management working group established & responsibilities of support departments mapped out

Training

Course materials for academic divisions

Linked infrastructure

Infrastructure components pass data and metadata through stages of research life-cycle

RDM Policy

University Research Data Management Policy ratified

RDM Benchmarking

Have you (or has your research team) ever deposited your research data in a dedicated repository or data store?

Yes
No
Can't recall

If 'no', why not?

Better understanding of researchers' attitudes to research data management, and ability to measure progress
